

- Details of Unpaid National Health Insurance Premiums (Notice of Demand for Payment)

This document notifies you of the amount of your unpaid insurance premiums. Please visit a financial institution other than Japan Post Bank with this document to pay the premiums by the designated due date. Please note that, if there are months for which only a late charge is due, the unpaid late charges are not included in the details. If it is difficult for you to pay the premiums due to any special circumstances, feel free to consult with us.

If you fail to make the payment by the designated due date, we may have to investigate your wages, deposits, savings, life insurance, accounts receivable, and other assets, and according to the investigation results, we may have to seize any of these items of property.
